Hakros Classifier With Product Key [Win/Mac]

Hakros Classifier is an easy to use application designed to automatically organize your files according to your preferences. It uses a simplistic, user-friendly interface that enables you to define where to search for your files based on file type, file size, file name, creation date, modification date, attributes and more. In addition, you can choose whether the program should look for duplicate files or folder or whether it should add new files automatically. Hakros Classifier allows you to create personalized search and categorization rules by selecting categories, folders, and files. A few clicks will automatically organize your media files and documents, by simply selecting the source and output directories. Hakros Classifier is an easy to use application designed to automatically organize your files according to your preferences. Hakros Classifier allows

Hakros Classifier Crack +

Hakros Classifier uses Microsoft Macro language with a keyword "meta" to define an extension for a particular category. Each data set can have its own subdirectory. Hakros Classifier is distributed as a single executable file with the following features:

- Organize data by file extension or by category, by file type or by date created
- List files by category, by file type or by date created
- Sort files by date created, category or file type
- Sort files by date created, category or file type, then by extension
- Display files with the names they should be sorted by
- Convert data in a single batch from one format to another (for example, ISO to CD audio)
- Optionally sort files by directory
- Support both the 80 and 192 character Windows filenames
- Support both file-based and meta-file based searches
- Compatible with Windows 95, Windows 98, Windows ME, Windows NT, Windows 2000, Windows XP, Windows Vista and Windows 7
- Compatible with Mac OS X 10.5 or newer
- Compatible with Linux
- Compatible with Mac OS X 10.4 or newer
- Compatible with Windows Server 2003, Windows Server 2008, Windows Server 2008 R2 and Windows Server 2012
