(VJDirector).Q: Dynamically create div for each array element I am trying to create dynamic divs inside of div#playerContainer. This should render 8 divs each of which contain a photo. Each player should have a unique photo.

```
playerContainer.innerHTML = "+ "+  
"; for(var i = 0; i '+ "
```

What I'm trying to do is create each div playerContainer from the for loop.

Right now it only renders the last playerContainer. I need to append each div created in that way to

playerContainer. A: Each time you create a new div element, there will be one playerContainer that's equal
