That's because, according to the Cypriot government, President Nicos Anastasiades' justice minister has just announced that the state-controlled banking group Bank of Cyprus will not be charged with criminal wrongdoing. "The government was forced to give an amnesty to the prosecutor-general," said a Finance Ministry official on Tuesday, according to Reuters. "Unfortunately it applies to all public officials who had anything to do with the Bank of Cyprus." Angelides has not been charged with anything but the 52-year-old is already barred from leaving the country and is under house arrest. Meanwhile, a pending vote by Cypriot lawmakers is set to give the government the opportunity to separate the country's public and private banks and transfer the assets of Cyprus Popular Bank and the Bank of Cyprus into one state-run entity. The Cypriot parliament is also set to vote on the controversial merger of its two biggest banks, NCB and Laiki. The vote is scheduled for February 24. Angelides and his cousin, George Tsipras, were both recently detained by police for questioning and questioned about the disappearance of the \$1.7 billion in money linked to Russian and Ukrainian oligarchs. Angelides was released two days later and Tsipras was freed following the assurance from Cypriot Justice Minister Andreas Antoniadis that he would not be prosecuted for holding cash for Russian oligarchs believed to be

design with the edge and detail of a frame! The end result is stunning - and beyond functional! Be sure to click on the "View Larger Preview" button on the "Milkweed Framed" album - then print this. Take your printed design into the store to see if the frame is the right size for you! And, once you decide, fill out and send in the Receive an Invite to an in-person visit! Filled with this design, a 4x5 photo will weigh about 1/2 pound. You'll need to use your own frame for the milkweed; we can't offer you a frame that is right for this (we are out of the 9" size).Q: Specify encoding of string for Template.render() in Node.js When I render template with Template.render('template.tmpl', { title: "Some Title" }, function(err, html) {... }); "Some Title" is encoded as Windows-1252 or something else (UTF-8).
