Multi-platform time-based volume automation solution for VST plugins. It is an incredibly easy to use volume automation plugin for all major VST plugins. KEYMACRO is a little tool to help you increase the quality of your mixes with automation.

Just load your favorite VST plugin, configure your compressor, equalizer and so on with a keyboard shortcut, and your VST plugin is now automatically volume-controlled by the hotkey. KEYMACRO delivers consistent automation by using the same automation times for all instances of your VST plugin and therefore is the only tool that delivers perfect VST plugin automation for every plugin out there. KeyMACRO operates either in hardware or software mode. In hardware mode, KeyMACRO simply monitors the midi input, but in software mode, KeyMACRO can also monitor the midi output of your VST plugin. For a quick and easy workflow, KeyMACRO offers a very intuitive and efficient user interface. With its ability to automate a host of VST plugins, KeyMACRO saves you time and provides an extra set of hands to automate your plugins. KeyMACRO can be used to automate any VST plugin with its three hotkeys, T for trigger, E for gain and S for send to the synth. To get started, just create a new keymap in the KeyMACRO GUI with your favorite plugins and hotkeys. Whenever you press the 'T' key in the KeyMACRO UI, your VST plugin is automatically triggered with the automation times you have set up. To get more creative with KeyMACRO, you can easily chain several plugins together in a chain. KeyMACRO also provides automation for every VST plugin and is the only software that can do it. The KeyMACRO GUI also offers an interface for every plugin you would like to automate. You can easily choose what to automate (override send, send to first plugin, send to all plugins) and control all your plugins at the same time. As a VST plugin, KeyMACRO is perfect for VST plugin users with automation requests such as mastering, automation on only vocals, MIDI sequencing and more. You can even automate a host of different VST plugins at the same time. It is the ideal tool to automate VST plugins for any genre and any project.
