KeyMandesktop80crackcocaine KeyMandesktop80crackcocaine KeyMandesktop80crackcocaine Q: I want to use react-native-gesture-handler but, 'react-native' package not available I want to use react-native-gesture-handler but, 'react-native' package not

available Here is the error : error: bundling failed: Error: No package for `react-native` found. npm-install Do I need to install 'react-native' package first? or I can use 'react-native' in custom project? A: You can use a workaround by using the following command: npm link --save react-native This will link react-native inside the node\_modules and you can install react-native-gesture-handler using: npm install react-native-gesture-handler Hope it helps! A: I just got this error and it was because I was trying to use the react-native-gesture-handler package with react-native-ios, which is from react-native 0.43, which I'm sure is no longer supported. I fixed the problem by installing react-native and everything worked out. npm install react-native ## ##
