**REPACK Elden Ring: Deluxe Edition keygen only [+ DLC]+ License Keygen**

---

In "Tactics of Tarnished Gold", you control a character that will face an onslaught of opponents at once. While wielding a weapon, you must use your overreaction skill, and deft reflexes to evade attacks while performing a dash, a powerful attack that summons a demon, or a magic that destroys an enemy. HOW TO PLAY: Use the actions and abilities of your character to attack your enemies and protect yourself in real-time combat. HOW TO WIN: Defeat your opponents and collect the fragmented hearts to return to the Port of the Cardboard Castle. [Battle System] USE YOUR WEAPONS AND SPECIAL SKILLS TO ATTACK Your Attack Gauge fills up when you attack, and will eventually reset when your battle ends. Use abilities, including Dash, a powerful attack that summons a demon, and Magic, a powerful attack that destroys your enemy. Attacks have a wide variety of elements including blast, thrust, grab, or magic attacks. As a result, you are able to employ a diverse attack method without sacrificing energy. REACTION TIME: RESPOND TO YOUR ATTACKS As your attack gauge fills, the faster you attack, the quicker you respond to your opponent's counterattack. Your reaction time is optimized to evade attacks while performing a dash, a powerful attack that summons a demon, or a magic that destroys your enemy. In addition, you can use a command to call out the power of a demon to perform a powerful attack when you're cornered. IF YOU CAN'T AVOID ATTACKS Even if you're not completely aware of the status of your attack gauge, you are able to block and dodge attacks even in times of extreme danger. Your reflexes allow you to evade attacks, even while taking damage. ADVANCED DASH: PROTECT YOURSELF FROM BEING BASHED If your attacking status is sufficient, use Dash to escape from any opponent and escape to a safe distance. Even if your attack gauge is full, you can escape to a safe distance by performing a Dash. If you perform a Dash while your attack gauge is full, you will reduce the damage you take. Even more, if you perform a Dash in a state that you cannot use magic or you are unable to use an ability, your status will be cancelled. REAL-TIME COMBAT: DIRECT ATTACKS TO YOUR ENEMIES After your attack gauge fills, you will attack
