RELATED: Download your free Community Edition Software Manuals 80: 3/4" Bass String Resonator Featuring delicate "etching"™ etching for a three-dimensional effect, and a curved upper body for a more powerful and balanced sound, this is certainly not the traditional Bass String Resonator and is therefore not a crosstrainer. The string is wound on the inside of the resonator, unlike a traditional bass string resonator which is wound on the outside. This design achieves a longer "cycle life"™ and more realistic sound, due to the lack of a significant part of the string that is not contacting the resonator. How do you
