The other thing we can do with the gripper is we can bring the gun up to the edge of the bag which is just very difficult to do. And a quick way to bring the gun to the edge of the bag is to use the top door for the carry case. So, you can have the bottom door closed and use the top door to bring the gun to the edge of the bag. So, the way I would describe it is the two different doors on the front are for different purposes. One is to carry it, one is to shoot it. It also has a very slick sleek look. The other thing I want to point out on that is that the thing you're looking at there is just part of the gun. When you shoot it, you get the attachment mechanism for that gun. So, you can see the difference in the two pieces that were there. So, the top part is the one that has the trigger, the safety. And the bottom part is the attachment mechanism. So, when you shoot that one, it pulls 1cdb36666d
