Download mirrors - AMD tries a new approach to cracking meagre discounts into AMD tries a new approach to cracking meagre discounts into the issues. The news. A few weeks ago, Intel officially released the second major update to its Express chipsets, the. Most of us can't wait to get out of the classroom and get the ball rolling on our internship, but graduation is looming. However, you probably want to do more than take a summer job or internship. Here are a few ways to put yourself in good position for the fall. Get Your Grades Up In addition to your formal education, you'll also want to help

---

your GPA as well. You probably already know how to do this in the standard way, but you might be surprised at how that system doesn't always work. If you're graduating in the fall, chances are you'll be fine once school starts again. However, if you're graduating in the spring, there's no such option -- you have to start working on your GPA right now.

It's easy to get into the habit of checking your GPA in your email regularly, so it's a good idea to put something like this in your signature. Get an Internship This one should be obvious. If you
