This is an epic, fast-paced, turn-based JRPG inspired by the best stories from classic JRPGs in the year 2017. In Divine Slice of Life, you play as Cappuccino, the creator of the world. The story begins with a young boy, named Cake, run away from his home village in the Forbidden Forest. Divine Slice of Life Review: Playtesters "Divine Slice of Life does not contain any direct or implied references to In The Name of the Grandfather nor to similar content." How To Build The Party The game is played by a party of characters, two being your protagonist and Cappuccino's assistant. The cast consists of: • Cake the main protagonist. Cake is a young, energetic, yet somewhat innocent boy. He doesn't know anything about this world. • Cappuccino the creator of this world. Cappuccino is a 24-year-old man with blonde hair and the most adorable shirt you've ever seen. He was born and raised in a fictional world called Vortex in which your characters reside. • Hamerighty the protagonist's human partner. Hamerighty is a human boy with brown hair and a custom-made scary mask. The creepy mask is made out of various pieces of skulls and blood-stained bandages he cut out of different corpses. • Dancing Bear a cool little bear with a great voice. Dancing Bear is very passionate and makes jokes. He is the most short tempered out of all the characters. • Weasel the most murderous of the party. He does murder and deceives, just like his name suggests. Weasel is the protagonist's homicidal partner.
